

# Beauty at Scale

TURNKEY WAREHOUSE SOLUTIONS FOR  
ULTA BEAUTY

## Background

Speedrack Products Group, in collaboration with Vargo, delivered a customized turnkey warehouse storage solution for ULTA Beauty's Bolingbrook, IL facility.

This seamless service integrated design, materials, installation, and project management into one efficient process, highlighting the power of partnership and delivering proven results to save time and money.

# PEDESTRIAN RACK TUNNEL

## KEY FEATURES

### High-Density Storage Systems

- Engineered and installed advanced warehouse storage solutions, including pallet rack, Very Narrow Aisle (VNA) rack, and pushback systems designed to maximize storage density, improve inventory accessibility, and support efficient order fulfillment.

### Specialized Hazardous Storage Areas

- Designed and equipped dedicated fragrance and aerosol storage rooms with critical safety and compliance features, including pallet supports, wire decking, fire baffles, and specialized accessories to support safe product storage and operational reliability.

## THE SOLUTION

- Navigated Bolingbrook's union-regulated environment with second-shift strategies, saving over \$250,000 in labor costs.
- Partnered with a local installer to eliminate travel-related expenses, delivering an additional \$90,000 in savings for Vargo and ULTA.
- Single-source provider ensured every element was completed on schedule, allowing ULTA full project completion with an aggressive eight-week timeline, without compromising quality or safety, finishing two weeks ahead of schedule and significantly under budget.
- Customized storage including fragrance and aerosol rooms, as well VNA Racks, mean ULTA's warehouse is effectively equipped for its unique product storage needs.

*The result is a high-performance warehouse solution tailored to ULTA's unique operational and product storage requirements. By combining strategic labor planning, local installation partnerships, and single-source project management, the project was completed two weeks ahead of schedule and significantly under budget—delivering more than \$340,000 in combined savings.*

*With customized fragrance and aerosol storage areas, VNA rack systems, and optimized warehouse layouts, ULTA is now equipped with a scalable, efficient, and safety-focused distribution environment built to support continued growth - beautifully.*
